

ACI STRUCTURAL JOURNAL

INDEX VOLUME 103, 2006

From a Journal of the American Concrete Institute, January through December 2005

American Concrete Institute®
Advancing concrete knowledge

AMERICAN CONCRETE INSTITUTE, Farmington Hills, Michigan

Remove this section and include it with your January through December 2005 Volume 102 issues of the *ACI Structural Journal*.

A

- Adetifa, B.**—Retrofit of slab column interior connection using shear bolts (102-S27) Mar.-Apr. 2005 268
- Aggregate**—Repeating a classic set of experiments on size effect in shear of members without stirrups (102-S84) Bentz, E. C., and Buckley, S., Nov.-Dec. 2005 832
- Al-Mahaidi, R. S.**—Strength of reinforced concrete bridge decks under compressive membrane action (102-S39) May-June 2005 393
- Alhassan, M. A.**—Seismic upgrade of interior beam-column subassemblages with high-performance fiber-reinforced concrete jackets (102-S14) Jan.-Feb. 2005 131
- Analysis**—Behavior of reinforced concrete columns under variable axial loads: analysis (102-S75) Esmaily, A., and Xiao, Y., Sept.-Oct. 2004 736
- Analysis of concrete slabs using shell element with assumed strain** (102-S52) Teng, S.; Liu, Y.; and Soh, C.-K., July-Aug. 2005 515
- Analysis of unreinforced masonry concrete walls strengthened with glass fiber-reinforced polymer bars** (102-S58) Li, T.; Galati, N.; Tumialan, J. G.; and Nanni, A., July-Aug. 2005 569
- Analytical and experimental studies of fiber-reinforced polymer-strengthened concrete beams under impact loading** (102-S15) Tang, T., and Saadatmanesh, H., Jan.-Feb. 2005 139
- Analytical model to evaluate failure behavior of plated reinforced concrete beams strengthened for shear** (101-S74) —Colotti, V.; Spadea, G.; and Swamy, R. N., Nov.-Dec. 2004 755 —Disc. by de Souza Sánchez Filho, E.; de Souza Lima Velasco, M.; and Einsfeld, R. A., Sept.-Oct. 2005 784
- Analytical model to predict nonlinear flexural behavior of corroded reinforced concrete beams** (102-S56) El Maaddawy, T.; Soudki, K.; and Topper, T., July-Aug. 2005 550
- Anchor**—Tensile behavior of post-installed anchors in plain and steel fiber-reinforced normal- and high-strength concretes (102-S22) Gesoglu, M.; Özturan, T.; Özel, M.; and Güneyisi, E., Mar.-Apr. 2005 224
- Anchorage** —CCT nodes anchored by headed bars—part I: behavior of nodes (102-S81) Thompson, M. K.; Ziehl, M. J.; Jirsa, J. O.; and Breen, J. E., Nov.-Dec. 2005 808 —Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005 823 —Headed studs in concrete: state of the art (102-S67) Ghali, A., and Youakim, S. A., Sept.-Oct. 2005 657
- Aparicio, A. C.**—Shear strength of joints in precast concrete segmental bridges (Disc. 102-S01) Nov.-Dec. 2005 901
- Aravinthan, T.**—Flexural behavior of two-span continuous prestressed concrete girders with highly eccentric external tendons (102-S40) May-June 2005 402
- Arwika, S. J.** —Performance of glass fiber-reinforced polymer reinforcing bars in tropical environments—part I: structural scale tests (102-S76) Sept.-Oct. 2005 745 —Performance of glass fiber-reinforced polymer reinforcing bars in tropical environments—part II: microstructural tests (102-S82) Nov.-Dec. 2005 816
- Aschheim, M.**—Design of concrete members subjected to uniaxial bending and compression using reinforcement sizing diagrams (102-S16) Jan.-Feb. 2005 150
- Audenaert, K.**—Axial load behavior of large-scale columns confined with fiber-reinforced polymer composites (102-S26) Mar.-Apr. 2005 258
- Autoclave**—Design and seismic testing of two-story, full-scale autoclaved aerated concrete assemblage specimen (102-S12) Tanner, J. E.; Varela, J. L.; and Klingner, R. E., Jan.-Feb. 2005 114
- Axial behavior and modeling of confined small-, medium-, and large-scale circular sections with carbon fiber-reinforced polymer jackets** (102-S61) Carey, S. A., and Harries, K. A., July-Aug. 2005 596

B

- Axial capacity model for shear-damaged columns** (102-S59) Elwood, K. J., and Moehle, J. P., July-Aug. 2005 578
- Axial load**—Axial capacity model for shear-damaged columns (102-S59) Elwood, K. J., and Moehle, J. P., July-Aug. 2005 578
- Axial load behavior of large-scale columns confined with fiber-reinforced polymer composites** (102-S26) Matthys, S.; Toutanji, H.; Audenaert, K.; and Taerwe, L., Mar.-Apr. 2005 258
- Bar ribs**—Recommended provisions and commentary on development and lap splice lengths for deformed reinforcing bars in tension (102-S91) Darwin, D.; Lutz, L. A.; and Zuo, J., Nov.-Dec. 2005 892
- Barnes, R. W.**—Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Nov.-Dec. 2005 823
- Bars** —Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) El-Gamal, S.; El-Salakawy, E.; and Benmokrane, B., Sept.-Oct. 2005 727 —Performance of glass fiber-reinforced polymer reinforcing bars in tropical environments—Part II: microstructural tests (102-S82) Mukherjee, A., and Arwika, S. J., Nov.-Dec. 2005 816
- Bartlett, F. M.**—Bond strength variability in pullout specimens with plain reinforcement (102-S87) Nov.-Dec. 2005 860
- Bayrak, O.** —Seismic upgrade of reinforced concrete slab-column connections using carbon fiber-reinforced polymers (102-S33) Mar.-Apr. 2005 324 —Use of fiber-reinforced polymers in slab-column connection upgrades (102-S10) Jan.-Feb. 2005 93
- Beam** —Development and validation of fiber model for high-strength square concrete-filled steel tube beam-columns (102-S08) Varma, A. H.; Sause, R.; Ricles, J. M.; and Li, Q., Jan.-Feb. 2005 73 —Long-term tension-stiffening effects in concrete (102-S04) Scott, R. H., and Beeby, A. W., Jan.-Feb. 2005 31 —Practical design of diagonally reinforced concrete coupling beams—critical review of ACI 318 requirements (102-S89) Harries, K. A.; Fortney, P. J.; Shahrooz, B. M.; and Brien, P. J., Nov.-Dec. 2005 876 —Reinforced high-strength concrete beams in flexure (102-S47) Rashid, M. A., and Mansur, M. A., May-June 2005 462 —Seismic upgrade of interior beam-column subassemblages with high-performance fiber-reinforced concrete jackets (102-S14) Shannag, M. J., and Alhassan, M. A., Jan.-Feb. 2005 131 —Ten-year study on steel fiber-reinforced concrete beams under sustained loads (102-S48) Tan, K. H., and Saha, M. K., May-June 2005 472
- Beam-column** —Role of hoops on shear strength of reinforced concrete beam-column joints (102-S45) Hwang, S.-J.; Lee, H.-J.; Liao, T.-F.; Wang, K.-C.; and Tsai, H.-H.; May-June 2005 445 —Highly Damage-Tolerant Beam-Column Joints Through Use of High-Performance Fiber-Reinforced Cement Composites (102-S50) Parra-Montesinos, G. J.; Peterfreund, S. W.; and Chao, S.-H. 487
- Beam-column joints**—Repair and strengthening of reinforced concrete beam-column joints: state of the art (102-S18) Enginleniz, M.; Kahn, L. F.; and Zureick, A.-H., Mar.-Apr. 2005 187
- Beams** —Analytical and experimental studies of fiber-reinforced polymer-strengthened concrete beams under impact loading (102-S15) Tang, T., and Saadatmanesh, H., Jan.-Feb. 2005 139 —Design of concrete members subjected to uniaxial bending and compression using reinforcement sizing diagrams (102-S16) Hernández-Montes, E.; Gil-Martin, L. M.; and Aschheim, M., Jan.-Feb. 2005 150 —Durability evaluation of carbon fiber-reinforced polymer strengthened concrete beams: experimental study and design (102-S05) Grace, N. F., and Singh, S. B., Jan.-Feb. 2005 40 —High-performance fiber-reinforced cement composites: an alternative for seismic design of structures (102-S68) Parra-Montesinos, G. J., Sept.-Oct. 2005 668 —Longitudinal steel stresses in beams due to shear and torsion in AASHTO-LRFD specifications (102-S70) Rahal, K. N., Sept.-Oct. 2005 689
- Beeby, A. W.**—Long-term tension-stiffening effects in concrete (102-S04)

Jan.-Feb. 2005	31
Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) El-Gamal, S.; El-Salakawy, E.; and Benmokrane, B., Sept.-Oct. 2005	727
Behavior of overlaid reinforced concrete slab panels under cyclic loading—effect of interface location and overlay thickness (102-S46) Lemieux, M.; Gagné, R.; Bissonnette, B.; and Lachemi, M., May-June 2005	454
Behavior of reinforced concrete columns under variable axial loads: analysis (102-S75) Esmaily, A., and Xiao, Y., Sept.-Oct. 2004	736
Bending moment—Simplified method for seismic analysis of industrial chimneys (102-S34) Fernández-Dávila, V. I.; Dünner, R. A.; and Carrión, L. E., May-June 2005	347
Benmokrane, B.	
—Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) Sept.-Oct. 2005	727
—Effect of sustained load and environment on long-term tensile properties of glass fiber-reinforced polymer reinforcing bars (102-S63) July-Aug. 2005	615
Benouaich, M. A. —Fatigue tests of reinforced concrete beams strengthened using carbon fiber-reinforced polymer composites (102-S31) Mar.-Apr. 2005	305
Bentz, E. C.	
—Empirical modeling of reinforced concrete shear strength size effect for members without stirrups (102-S23) Mar.-Apr. 2005	232
—Repeating a classic set of experiments on size effect in shear of members without stirrups (102-S84) Nov.-Dec. 2005	832
Binici, B.	
—Seismic upgrade of reinforced concrete slab-column connections using carbon fiber-reinforced polymers (102-S33) Mar.-Apr. 2005	324
—Use of fiber-reinforced polymers in slab-column connection upgrades (102-S10) Jan.-Feb. 2005	93
Bisby, L. A.	
—Comparison of confinement models for fiber-reinforced polymer-wrapped concrete (102-S07) Jan.-Feb. 2005	62
—Fire endurance of fiber-reinforced polymer-confined concrete columns (102-S90) Nov.-Dec. 2005	883
—Thermal behavior of fire-exposed concrete slabs reinforced with fiber-reinforced polymer bars (102-S80) Nov.-Dec. 2005	799
Bischoff, P. H. —Stress-strain relationship of reinforced concrete subjected to biaxial tension (Disc. 101-S20) Jan.-Feb. 2005	169
Bissonnette, B. —Behavior of overlaid reinforced concrete slab panels under cyclic loading—effect of interface location and overlay thickness (102-S46) May-June 2005	454
Bond	
—Analytical model to predict nonlinear flexural behavior of corroded reinforced concrete beams (102-S56) El Maaddawy, T.; Soudki, K.; and Topper, T., July-Aug. 2005	550
—Bond strength of lap-spliced bars (102-S62) Canbay, E., and Froesch, R. J., July-Aug. 2005	605
—Bond strength variability in pullout specimens with plain reinforcement (102-S87) Feldman, L. R., and Bartlett, F. M., Nov.-Dec. 2005	860
—Development/splice length of reinforcing bars (102-S03) Esfahani, M. R., and Kianoush, M. R., Jan.-Feb. 2005	22
—Longitudinal steel stresses in beams due to shear and torsion in AASHTO-LRFD specifications (102-S70) Rahal, K. N., Sept.-Oct. 2005	689
—Recommended provisions and commentary on development and lap splice lengths for deformed reinforcing bars in tension (102-S91) Darwin, D.; Lutz, L. A.; and Zuo, J., Nov.-Dec. 2005	892
—Seismic performance of reinforced concrete piers with bond-controlled reinforcements (102-S30) Pandey, G. R., and Mutsuyoshi, H., Mar.-Apr. 2005	295
—Steel-free composite slabs made of reactive powder materials and fiber-reinforced concrete (102-S72) Hassan, A., and Kawakami, M., Sept.-Oct. 2005	709
Bond strength of lap-spliced bars (102-S62) Canbay, E., and Froesch, R. J., July-Aug. 2005	605
Bond strength variability in pullout specimens with plain reinforcement (102-S87) Feldman, L. R., and Bartlett, F. M., Nov.-Dec. 2005	860
Branco, F. A. B. —Reinforced concrete jacketing—interface influence on monotonic loading response (102-S25) Mar.-Apr. 2005	252
Breen, J. E.	
—Stresses in external tendons at ultimate (102-S20) Mar.-Apr. 2005	206
—CCT nodes anchored by headed bars—part 1: behavior of nodes (102-S81) Nov.-Dec. 2005	808
Breña, S. F. —Fatigue tests of reinforced concrete beams strengthened using carbon fiber-reinforced polymer composites (102-S31) Mar.-Apr. 2005	305

Bridge

—Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005	823
—Repair of bridge girders with composites: experimental and analytical validation (102-S65) Di Ludovico, M.; Nanni, A.; Protá, A.; and Cosenza, E.; Sept.-Oct. 2005	639
—Seismic design guidelines for squat composite-jacketed circular and rectangular reinforced concrete bridge columns (102-S51) Elsanadey, H. M., and Haroun, M. A., July-Aug. 2005	505
Bridge deck	
—Behavior of overlaid reinforced concrete slab panels under cyclic loading—effect of interface location and overlay thickness (102-S46) Lemieux, M.; Gagné, R.; Bissonnette, B.; and Lachemi, M., May-June 2005	454
—Statistical variations in chloride diffusion in concrete bridges (102-S49) Tikalsky, P. J.; Pustka, D.; and Marek, P., May-June 2005	481
Bridge deck slab —Fatigue life of damaged bridge deck panels strengthened with carbon fiber sheets (102-S09) Oh, H.; Sim, J.; and Meyer, C., Jan.-Feb. 2005	85
Bridges	
—Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) El-Gamal, S.; El-Salakawy, E.; and Benmokrane, B., Sept.-Oct. 2005	727
—Seismic design criteria for circular lap-spliced reinforced concrete bridge columns retrofitted with fiber-reinforced polymer jackets (102-S35) Elsanadey, H. M., and Haroun, M. A., May-June 2005	354
—Seismic retrofit of octagonal columns with pedestal and one-way hinge at base (102-S71) Johnson, N.; Saiidi, M. S.; Itani, A.; and Ladkany, S., Sept.-Oct. 2005	699
—Steel-free composite slabs made of reactive powder materials and fiber-reinforced concrete (102-S72) Hassan, A., and Kawakami, M., Sept.-Oct. 2005	709
—Strength of reinforced concrete bridge decks under compressive membrane action (102-S39) Hon, A.; Taplin, G.; and Al-Mahaidi, R. S., May-June 2005	393
Brienen, P. J. —Practical design of diagonally reinforced concrete coupling beams—critical review of ACI 318 requirements (102-S89) Nov.-Dec. 2005	876
Brightman, M. J. —Seismic testing of autoclaved aerated concrete shearwalls: a comprehensive review (102-S37) May-June 2005	374
Buckley, S. —Repeating a classic set of experiments on size effect in shear of members without stirrups (102-S84) Nov.-Dec. 2005	832
Burkett, W. R. —Evaluation of code requirement for 0.6 in. (15 mm) prestressing strand (102-S42) May-June 2005	422

C

Canbay, E. —Bond strength of lap-spliced bars (102-S62) July-Aug. 2005	605
Canbolat, B. A. —Experimental study on seismic behavior of high-performance fiber-reinforced cement composite coupling beams (102-S17) Jan.-Feb. 2005	159
Cancino, U. —Seismic testing of autoclaved aerated concrete shearwalls: a comprehensive review (102-S37) May-June 2005	374
Carbon —Performance of glass fiber-reinforced polymer reinforcing bars in tropical environments—part I: structural scale tests (102-S76) Mukherjee, A., and Arwilar, S. J., Sept.-Oct. 2005	745
Carey, S. A. —Axial behavior and modeling of confined small-, medium-, and large-scale circular sections with carbon fiber-reinforced polymer jackets (102-S61) July-Aug. 2005	596
Carrión, L. E. —Simplified method for seismic analysis of industrial chimneys (102-S34) May-June 2005	347
CCT nodes anchored by headed bars—part 1: behavior of nodes (102-S81) Thompson, M. K.; Ziehl, M. J.; Jirsa, J. O.; and Breen, J. E., Nov.-Dec. 2005	808
Cellular concrete —Design and seismic testing of two-story, full-scale autoclaved aerated concrete assemblage specimen (102-S12) Tanner, J. E.; Varela, J. L.; and Klingner, R. E., Jan.-Feb. 2005	114
Chao, S.-H. —Highly damage-tolerant beam-column joints through use of high-performance fiber-reinforced cement composites (102-S50) May-June 2005	487
Chen, C.-C. —Punching shear strength of reinforced concrete slabs strengthened with glass fiber-reinforced polymer laminates (102-S54) July-Aug. 2005	535
Code —Practical design of diagonally reinforced concrete coupling beams—critical review of ACI 318 requirements (102-S89) Harries, K. A.; Fortney, P. J.; Shahrooz, B. M.; and Brienen, P. J., Nov.-Dec. 2005	876

Collars —Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Hussain, M. A., and Driver, R. G., Mar.-Apr. 2005	242
Column	
—Axial behavior and modeling of confined small-, medium-, and large-scale circular sections with carbon fiber-reinforced polymer jackets (102-S61) Carey, S. A., and Harries, K. A., July-Aug. 2005	596
—Axial capacity model for shear-damaged columns (102-S59) Elwood, K. J., and Moehle, J. P., July-Aug. 2005	578
—Axial load behavior of large-scale columns confined with fiber-reinforced polymer composites (102-S26) Matthys, S.; Toutanji, H.; Audenaert, K.; and Taerwe, L., Mar.-Apr. 2005	258
—Behavior of reinforced concrete columns under variable axial loads: analysis (102-S75) Esmaily, A., and Xiao, Y., Sept.-Oct. 2004	736
—Damage-based stress-strain model for fiber-reinforced polymer-confined concrete (102-S06) Moran, D. A., and Pantelides, C. P., Jan.-Feb. 2005	54
—Development and validation of fiber model for high-strength square concrete-filled steel tube beam-columns (102-S08) Varma, A. H.; Sause, R.; Ricles, J. M.; and Li, Q., Jan.-Feb. 2005	73
—Experimental investigation of column-slab joints (102-S11) Shah, A. A.; Dietz, J.; Tue, N. V.; and Koenig, G., Jan.-Feb. 2005	103
—Flexural behavior of high-workability concrete columns under cyclic loading (102-S41) Lin, C.-H., and Lin, S.-P., May-June 2005	412
—Performance of concrete bridge columns under shaketable excitation (102-S44) Laplace, P. N.; Sanders, D. H.; Saiidi, M. S.; Douglas, B. M.; and El-Azazy, S., May-June 2005	438
—Retrofit of slab column interior connections using shear bolts (102-S27) Adetifa, B., and Polak, M. A., Mar.-Apr. 2005	268
—Retrofitted concrete bridge columns under shaketable excitation (102-S64) Laplace, P. N.; Sanders, D. H.; Saiidi, M. S.; Douglas, B. M.; and El-Azazy, S., July-Aug. 2005	622
—Seismic design guidelines for squat composite-jacketed circular and rectangular reinforced concrete bridge columns (102-S51) Elsanadedy, H. M., and Haroun, M. A., July-Aug. 2005	505
—Seismic resistance of square concrete columns retrofitted with glass fiber-reinforced polymer (102-S79) Memon, M. S., and Sheikh, S. A., Sept.-Oct. 2005	774
—Use of fiber-reinforced polymers in slab-column connection upgrades (102-S10) Binici, B., and Bayrak, O., Jan.-Feb. 2005	93
Columns	
—Comparison of confinement models for fiber-reinforced polymer-wrapped concrete (102-S07) Bisby, L. A.; Dent, A. J. S.; and Green, M. F., Jan.-Feb. 2005	62
—Design of concrete members subjected to uniaxial bending and compression using reinforcement sizing diagrams (102-S16) Hernández-Montes, E.; Gil-Martín, L. M.; and Aschheim, M., Jan.-Feb. 2005	150
—Equivalent uniform moment diagram factor for composite columns in minor axis bending (102-S13) Tikka, T. K., and Mirza, S. A., Jan.-Feb. 2005	120
—Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Hussain, M. A., and Driver, R. G., Mar.-Apr. 2005	242
—Nonlinear <i>EI</i> equation for slender reinforced concrete columns (102-S85) Tikka, T. K., and Mirza, S. A., Nov.-Dec. 2005	839
—Nonslender column limits for braced and unbraced reinforced concrete members (102-S02) Hellesland, J., Jan.-Feb. 2005	12
—Reliability analysis for eccentrically loaded columns (102-S69) Szerszen, M. M.; Szwed, A.; and Nowak, A. S., Sept.-Oct. 2005	676
—Seismic design criteria for circular lap-spliced reinforced concrete bridge columns retrofitted with fiber-reinforced polymer jackets (102-S35) Elsanadedy, H. M., and Haroun, M. A., May-June 2005	354
—Seismic performance of reinforced concrete piers with bond-controlled reinforcements (102-S30) Pandey, G. R., and Mutsuyoshi, H., Mar.-Apr. 2005	295
—Seismic retrofit of octagonal columns with pedestal and one-way hinge at base (102-S71) Johnson, N.; Saiidi, M. S.; Itani, A.; and Ladkany, S., Sept.-Oct. 2005	699
Comparison of confinement models for fiber-reinforced polymer-wrapped concrete (102-S07) Bisby, L. A.; Dent, A. J. S.; and Green, M. F., Jan.-Feb. 2005	62
Composite construction —Equivalent uniform moment diagram factor for composite columns in minor axis bending (102-S13) Tikka, T. K., and Mirza, S. A., Jan.-Feb. 2005	120
Composites —Repair of bridge girders with composites: experimental and analytical validation (102-S65) Di Ludovico, M.; Nanni, A.; Protá, A.; and Cosenza, E., Sept.-Oct. 2005	639
Compression	
—Axial behavior and modeling of confined small-, medium-, and large-	

scale circular sections with carbon fiber-reinforced polymer jackets (102-S61) Carey, S. A., and Harries, K. A., July-Aug. 2005	596
—Strength of reinforced concrete bridge decks under compressive membrane action (102-S39) Hon, A.; Taplin, G.; and Al-Mahaidi, R. S., May-June 2005	393
Compression member —Nonslender column limits for braced and unbraced reinforced concrete members (102-S02) Hellesland, J., Jan.-Feb. 2005	12
Concrete	
—Behavior of overlaid reinforced concrete slab panels under cyclic loading—effect of interface location and overlay thickness (102-S46) Lemieux, M.; Gagné, R.; Bissonnette, B.; and Lachemi, M., May-June 2005	454
—Corrosion-induced cracking: experimental data and predictive models (102-S73) Vu, K.; Stewart, M. G.; and Mullard, J., Sept.-Oct. 2005	719
—Development/splice length of reinforcing bars (102-S02) Esfahani, M. R., and Kianoush, M. R., Jan.-Feb. 2005	22
—Durability evaluation of carbon fiber-reinforced polymer strengthened concrete beams: experimental study and design (102-S05) Grace, N. F., and Singh, S. B., Jan.-Feb. 2005	40
—Dynamic responses of flat plate systems with shear reinforcement (102-S78) Kang, T. H.-K., and Wallace, J. W., Sept.-Oct. 2005	763
—Equivalent uniform moment diagram factor for composite columns in minor axis bending (102-S13) Tikka, T. K., and Mirza, S. A., Jan.-Feb. 2005	120
—Influence of concrete strength on confinement effectiveness of fiber-reinforced polymer circular jackets (102-S38) Mandal, S.; Hoskin, A.; and Fam, A., May-June 2005	383
—Long-term performance of corrosion-damaged reinforced concrete beams (102-S66) El Maaddawy, T.; Soudki, K.; and Topper, T., Sept.-Oct. 2005	649
—Long-term tension-stiffening effects in concrete (102-S04) Scott, R. H., and Beeby, A. W., Jan.-Feb. 2005	31
—Reinforced concrete jacketing—interface influence on monotonic loading response (102-S25) Júlio, E. N. B. S.; Branco, F. A. B.; and Silva, V. D., Mar.-Apr. 2005	252
—Retrofit of slab column interior connections using shear bolts (102-S27) Adetifa, B., and Polak, M. A., Mar.-Apr. 2005	268
—Seismic resistance of square concrete columns retrofitted with glass fiber-reinforced polymer (102-S79) Memon, M. S., and Sheikh, S. A., Sept.-Oct. 2005	774
Confined concrete	
—Axial behavior and modeling of confined small-, medium-, and large-scale circular sections with carbon fiber-reinforced polymer jackets (102-S61) Carey, S. A., and Harries, K. A., July-Aug. 2005	596
—Structural performance of self-consolidating concrete used in confined concrete columns (102-S57) Paultre, P.; Khayat, K. H.; Cusson, D.; and Tremblay, S., July-Aug. 2005	560
Confinement	
—Fire endurance of fiber-reinforced polymer-confined concrete columns (102-S90) Bisby, L. A.; Kodur, V. K. R.; and Green, M. F., Nov.-Dec. 2005	883
—Influence of concrete strength on confinement effectiveness of fiber-reinforced polymer circular jackets (102-S38) Mandal, S.; Hoskin, A.; and Fam, A., May-June 2005	383
—Seismic resistance of square concrete columns retrofitted with glass fiber-reinforced polymer (102-S79) Memon, M. S., and Sheikh, S. A., Sept.-Oct. 2005	774
Corrosion	
—Analytical model to predict nonlinear flexural behavior of corroded reinforced concrete beams (102-S56) El Maaddawy, T.; Soudki, K.; and Topper, T., July-Aug. 2005	550
—Corrosion-induced cracking: experimental data and predictive models (102-S73) Vu, K.; Stewart, M. G.; and Mullard, J., Sept.-Oct. 2005	719
—Long-term performance of corrosion-damaged reinforced concrete beams (102-S66) El Maaddawy, T.; Soudki, K.; and Topper, T., Sept.-Oct. 2005	649
—Statistical variations in chloride diffusion in concrete bridges (102-S49) Tikalsky, P. J.; Pustka, D.; and Marek, P., May-June 2005	481
—Time-dependent reliability analysis of corrosion-induced concrete cracking (102-S55) Li, C. Q., and Melchers, R. E., July-Aug. 2005	543
Corrosion-induced cracking: experimental data and predictive models (102-S73) Vu, K.; Stewart, M. G.; and Mullard, J., Sept.-Oct. 2005	719
Cosenza, E. —Repair of bridge girders with composites: experimental and analytical validation (102-S65) Sept.-Oct. 2005	639
Crack —Reinforced high-strength concrete beams in flexure (102-S47) Rashid, M. A., and Mansur, M. A., May-June 2005	462
Cracking	
—Corrosion-induced cracking: experimental data and predictive models (102-S73) Vu, K.; Stewart, M. G.; and Mullard, J., Sept.-Oct. 2005	719

—Long-term performance of corrosion-damaged reinforced concrete beams (102-S66) El Maaddawy, T.; Soudki, K.; and Topper, T., Sept.-Oct. 2005	649
—Ten-year study on steel fiber-reinforced concrete beams under sustained loads (102-S48) Tan, K. H., and Saha, M. K., May-June 2005	472
—Time-dependent deflection and deformation of reinforced concrete flat slabs—an experimental study (102-S36) Gilbert, R. I., and Guo, X. H., May-June 2005	363
—Time-dependent reliability analysis of corrosion-induced concrete cracking (102-S55) Li, C. Q., and Melchers, R. E., July-Aug. 2005	543
Creep —Time-dependent deflection and deformation of reinforced concrete flat slabs—an experimental study (102-S36) Gilbert, R. I., and Guo, X. H., May-June 2005	363
Curling —Evaluation of slab shape under controlled environmental conditions (102-S60) Sargand, S.; Swanlund, M.; Wise, J.; and Edwards, W., July-Aug. 2005	588
Cusson, D. —Structural performance of self-consolidating concrete used in confined concrete columns (102-S57) July-Aug. 2005	560
Cyclic loading —Flexural behavior of high-workability concrete columns under cyclic loading (102-S41) Lin, C.-H., and Lin, S.-P., May-June 2005	412

D

Damage-based stress-strain model for fiber-reinforced polymer-confined concrete (102-S06) Moran, D. A., and Pantelides, C. P., Jan.-Feb. 2005	54
Darwin, D. —Recommended provisions and commentary on development and lap splice lengths for deformed reinforcing bars in tension (102-S91) Nov.-Dec. 2005	892
de Souza Lima Velasco, M. —Analytical model to evaluate failure behavior of plated reinforced concrete beams strengthened for shear (Disc. 101-S74) Sept.-Oct. 2005	784
—Shear strengthening of reinforced concrete beams using fiber-reinforced polymer sheets with bonded anchorage (Disc. 101-S65) July-Aug. 2005	629
de Souza Sánchez Filho, E. —Analytical model to evaluate failure behavior of plated reinforced concrete beams strengthened for shear (Disc. 101-S74) Sept.-Oct. 2005	784
—Effective torsional rigidity of concrete reinforced members (Disc. 100-S26) Jan.-Feb. 2005	175
—Shear strengthening of reinforced concrete beams using fiber-reinforced polymer sheets with bonded anchorage (Disc. 101-S65) July-Aug. 2005	629
Debaik, A. S. —Effect of sustained load and environment on long-term tensile properties of glass fiber-reinforced polymer reinforcing bars (102-S63) July-Aug. 2005	615
Debonding —Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005	823
Deflection —Analytical and experimental studies of fiber-reinforced polymer-strengthened concrete beams under impact loading (102-S15) Tang, T., and Saadatmanesh, H., Jan.-Feb. 2005	139
—Analytical model to predict nonlinear flexural behavior of corroded reinforced concrete beams (102-S56) El Maaddawy, T.; Soudki, K.; and Topper, T., July-Aug. 2005	550
—Long-term tension-stiffening effects in concrete (102-S04) Scott, R. H., and Beeby, A. W., Jan.-Feb. 2005	31
—Reinforced high-strength concrete beams in flexure (102-S47) Rashid, M. A., and Mansur, M. A., May-June 2005	462
—Ten-year study on steel fiber-reinforced concrete beams under sustained loads (102-S48) Tan, K. H., and Saha, M. K., May-June 2005	472
—Time-dependent deflection and deformation of reinforced concrete flat slabs—an experimental study (102-S36) Gilbert, R. I., and Guo, X. H., May-June 2005	363
—Ultimate deflection capacity of lightly reinforced concrete intake towers (102-S21) Dove, R. C., and Matheu, E. E., Mar.-Apr. 2005	214
Dent, A. J. S. —Comparison of confinement models for fiber-reinforced polymer-wrapped concrete (102-S07) Jan.-Feb. 2005	62
Design and seismic testing of two-story, full-scale autoclaved aerated concrete assembly specimen (102-S12) Tanner, J. E.; Varela, J. L.; and Klingner, R. E.; Jan.-Feb. 2005	114
Design of concrete members subjected to uniaxial bending and compression using reinforcement sizing diagrams (102-S16) Hernández-Montes, E.; Gil-Martín, L. M.; and Aschheim, M., Jan.-Feb. 2005	150
Deterioration —Time-dependent risk assessment of structural deterioration caused by reinforcement corrosion (102-S77) Li, C. Q., and Melchers, R. E., Sept.-Oct. 2005	754

Development and validation of fiber model for high-strength square concrete-filled steel tube beam-columns (102-S08) Varma, A. H.; Sause, R.; Ricles, J. M.; and Li, Q., Jan.-Feb. 2005	73
--	----

Development length

—Development/splice length of reinforcing bars (102-S03) Esfahani, M. R., and Kianoush, M. R., Jan.-Feb. 2005	22
—Evaluation of code requirement for 0.6 in. (15 mm) prestressing strand (102-S42) Kose, M. M., and Burkett, W. R., May-June 2005	422
—Headed studs in concrete: state of the art (102-S67) Ghali, A., and Youakim, S. A., Sept.-Oct. 2005	657
—Recommended provisions and commentary on development and lap splice lengths for deformed reinforcing bars in tension (102-S91) Darwin, D.; Lutz, L. A.; and Zuo, J., Nov.-Dec. 2005	892
Development/splice length of reinforcing bars (102-S03) Esfahani, M. R., and Kianoush, M. R., Jan.-Feb. 2005	22
Di Ludovico, M. —Repair of bridge girders with composites: experimental and analytical validation (102-S65) Sept.-Oct. 2005	639
Dietz, J. —Experimental investigation of column-slab joints (102-S11) Jan.-Feb. 2005	103
Dilation —Axial behavior and modeling of confined small-, medium-, and large-scale circular sections with carbon fiber-reinforced polymer jackets (102-S61) Carey, S. A., and Harries, K. A., July-Aug. 2005	596
Douglas, B. M. —Performance of concrete bridge columns under shaketable excitation (102-S44) May-June 2005	438
—Retrofitting concrete bridge columns under shaketable excitation (102-S64) July-Aug. 2005	622
Dove, R. C. —Ultimate deflection capacity of lightly reinforced concrete intake towers (102-S21) Mar.-Apr. 2005	214
Dovich, L. M. —Effective slab width model for seismic analysis of flat slab frames (102-S88) Nov.-Dec. 2005	868
Driver, R. G. —Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Mar.-Apr. 2005	242
Ductility —Damage-based stress-strain model for fiber-reinforced polymer-confined concrete (102-S06) Moran, D. A., and Pantelides, C. P., Jan.-Feb. 2005	54
—Ductility demands on self-centering systems under earthquake loading (102-S28) Seo, C.-Y., and Sause, R., Mar.-Apr. 2005	275
—Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Hussain, M. A., and Driver, R. G., Mar.-Apr. 2005	242
—Flexural behavior of high-workability concrete columns under cyclic loading (102-S41) Lin, C.-H., and Lin, S.-P., May-June 2005	412
—Reinforced high-strength concrete beams in flexure (102-S47) Rashid, M. A., and Mansur, M. A., May-June 2005	462
—Seismic performance of reinforced concrete piers with bond-controlled reinforcements (102-S30) Pandey, G. R., and Mutsuyoshi, H., Mar.-Apr. 2005	295
—Seismic resistance of square concrete columns retrofitted with glass fiber-reinforced polymer (102-S79) Memon, M. S., and Sheikh, S. A., Sept.-Oct. 2005	774
—Structural performance of self-consolidating concrete used in confined concrete columns (102-S57) Paultre, P.; Khayat, K. H.; Cusson, D.; and Tremblay, S., July-Aug. 2005	560
—Ultimate deflection capacity of lightly reinforced concrete intake towers (102-S21) Dove, R. C., and Matheu, E. E., Mar.-Apr. 2005	214
Ductility demands on self-centering systems under earthquake loading (102-S28) Seo, C.-Y., and Sause, R., Mar.-Apr. 2005	275
Dünner, R. A. —Simplified method for seismic analysis of industrial chimneys (102-S34) May-June 2005	347
Durability —Durability evaluation of carbon fiber-reinforced polymer strengthened concrete beams: experimental study and design (102-S05) Grace, N. F., and Singh, S. B., Jan.-Feb. 2005	40
—Statistical variations in chloride diffusion in concrete bridges (102-S49) Tikalsky, P. J.; Pustka, D.; and Marek, P., May-June 2005	481
Durability evaluation of carbon fiber-reinforced polymer strengthened concrete beams: experimental study and design (102-S05) Grace, N. F., and Singh, S. B., Jan.-Feb. 2005	40
Dynamic responses of flat plate systems with shear reinforcement (102-S78) Kang, T. H.-K., and Wallace, J. W., Sept.-Oct. 2005	763

E

Earthquake-resistant structures —Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Hussain, M. A., and Driver, R. G., Mar.-Apr. 2005	242
--	-----

Eccentricity —Reliability analysis for eccentrically loaded columns (102-S69) Szerszen, M. M.; Szwed, A.; and Nowak, A. S., Sept.-Oct. 2005	676
Edwards, W. —Evaluation of slab shape under controlled environmental conditions (102-S60) July-Aug. 2005	588
Effect of sustained load and environment on long-term tensile properties of glass fiber-reinforced polymer reinforcing bars (102-S63) Nkurunziza, G.; Benmokrane, B.; Debaiky, A. S.; and Masmoudi, R., July-Aug. 2005	615
Effective slab width model for seismic analysis of flat slab frames (102-S88) Dovich, L. M., and Wight, J. K., Nov.-Dec. 2005	868
Effective torsional rigidity of reinforced concrete members (100-S26) —Disc. by de Souza Sánchez Filho, E., and Holtz Silva Filho, J. J., Jan.-Feb. 2005	175
—Tavio, and Teng, S., Mar.-Apr. 2004	252
Effective width —Effective slab width model for seismic analysis of flat slab frames (102-S88) Dovich, L. M., and Wight, J. K., Nov.-Dec. 2005	868
Einsfeld, R. A. —Analytical model to evaluate failure behavior of plated reinforced concrete beams strengthened for shear (Disc. 101-S74) Sept.-Oct. 2005	784
—Shear strengthening of reinforced concrete beams using fiber-reinforced polymer sheets with bonded anchorage (Disc. 101-S65) July-Aug. 2005	629
El-Azazy, S. —Performance of concrete bridge columns under shaketable excitation (102-S35) May-June 2005	438
—Retrofitting concrete bridge columns under shaketable excitation (102-S64) July-Aug. 2005	622
El-Gamal, S. —Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) Sept.-Oct. 2005	727
El Maaddawy, T. —Analytical model to predict nonlinear flexural behavior of corroded reinforced concrete beams (102-S56) July-Aug. 2005	550
—Long-term performance of corrosion-damaged reinforced concrete beams (102-S66) Sept.-Oct. 2005	649
El-Salakawy, E. —Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) Sept.-Oct. 2005	727
Elsanadedy, H. M. —Seismic design criteria for circular lap-spliced reinforced concrete bridge columns retrofitted with fiber-reinforced polymer jackets (102-S35) May-June 2005	354
—Seismic design guidelines for squat composite-jacketed circular and rectangular reinforced concrete bridge columns (102-S51) July-Aug. 2005	505
Elwood, K. J. —Axial capacity model for shear-damaged columns (102-S59) July-Aug. 2005	578
Embedment length —Tensile behavior of post-installed anchors in plain and steel fiber-reinforced normal- and high-strength concretes (102-S22) Gesoglu, M.; Özturan, T.; Özel, M.; and Güneyisi, E., Mar.-Apr. 2005	224
Empirical modeling of reinforced concrete shear strength size effect for members without stirrups (102-S23) Bentz, E. C., Mar.-Apr. 2005	232
Engindeniz, M. —Repair and strengthening of reinforced concrete beam-column joints: state of the art (102-S18) Mar.-Apr. 2005	187
Epoxy —Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005	823
—Shear strength of joints in precast concrete segmental bridges (102-S01) Zhou, X.; Mickleborough, N.; and Li, Z., Jan.-Feb. 2005	3
Equivalent uniform moment diagram factor for composite columns in minor axis bending (102-S13) Tikka, T. K., and Mirza, S. A., Jan.-Feb. 2005	120
Esfahani, M. R. —Development/splice length of reinforcing bars (102-S03) Jan.-Feb. 2005	22
Esmaily, A. —Behavior of reinforced concrete columns under variable axial loads: analysis (102-S75) Sept.-Oct. 2004	736
Evaluation of code requirement for 0.6 in. (15 mm) prestressing strand (102-S42) Kose, M. M., and Burkett, W. R., May-June 2005	422
Evaluation of slab shape under controlled environmental conditions (102-S60) Sargand, S.; Swanlund, M.; Wise, J.; and Edwards, W., July-Aug. 2005	588
Experimental investigation of column-slab joints (102-S11) Shah, A. A.; Dietz, J.; Tue, N. V.; and Koenig, G., Jan.-Feb. 2005	103
Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Hussain, M. A., and Driver, R. G., Mar.-Apr. 2005	242
Experimental study on seismic behavior of high-performance fiber-	

reinforced cement composite coupling beams (102-S17)

—Canbolat, B. A.; Parra-Montesinos, G. J.; and Wight, J. K., Jan.-Feb. 2005	159
—Disc. by Paulay, T., Nov.-Dec. 2005	909
External confinement —Experimental investigation of external confinement of reinforced concrete columns by hollow structural section collars (102-S24) Hussain, M. A., and Driver, R. G., Mar.-Apr. 2005	242

Failure

—Time-dependent reliability analysis of corrosion-induced concrete cracking (102-S55) Li, C. Q., and Melchers, R. E., July-Aug. 2005	543
—Time-dependent risk assessment of structural deterioration caused by reinforcement corrosion (102-S77) Li, C. Q., and Melchers, R. E., Sept.-Oct. 2005	754
Fam, A. —Influence of concrete strength on confinement effectiveness of fiber-reinforced polymer circular jackets (102-S38) May-June 2005	383
Fatigue —Fatigue tests of reinforced concrete beams strengthened using carbon fiber-reinforced polymer composites (102-S31) Breña, S. F.; Benouaich, M. A.; Kreger, M. E.; and Wood, S. L., Mar.-Apr. 2005	305
Fatigue life of damaged bridge deck panels strengthened with carbon fiber sheets (102-S09) Oh, H.; Sim, J.; and Meyer, C., Jan.-Feb. 2005	85
Fatigue resistance —Fatigue life of damaged bridge deck panels strengthened with carbon fiber sheets (102-S09) Oh, H.; Sim, J.; and Meyer, C., Jan.-Feb. 2005	85
Fatigue tests of reinforced concrete beams strengthened using carbon fiber-reinforced polymer composites (102-S31) Breña, S. F.; Benouaich, M. A.; Kreger, M. E.; and Wood, S. L., Mar.-Apr. 2005	305
Feldman, L. R. —Bond strength variability in pullout specimens with plain reinforcement (102-S87) Nov.-Dec. 2005	860
Fernández-Dávila, V. L. —Simplified method for seismic analysis of industrial chimneys (102-S34) May-June 2005	347

Fiber-reinforced concrete

—Axial load behavior of large-scale columns confined with fiber-reinforced polymer composites (102-S26) Matthys, S.; Toutanji, H.; Audenaert, K.; and Taerwe, L., Mar.-Apr. 2005	258
—Experimental study on seismic behavior of high-performance fiber-reinforced cement composite coupling beams (102-S17) Canbolat, B. A.; Parra-Montesinos, G. J.; and Wight, J. K., Jan.-Feb. 2005	159
—Fatigue tests of reinforced concrete beams strengthened using carbon fiber-reinforced polymer composites (102-S31) Breña, S. F.; Benouaich, M. A.; Kreger, M. E.; and Wood, S. L., Mar.-Apr. 2005	305
—Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005	823
—Tensile behavior of post-installed anchors in plain and steel fiber-reinforced normal- and high-strength concretes (102-S22) Gesoglu, M.; Özturan, T.; Özel, M.; and Güneyisi, E., Mar.-Apr. 2005	224

Fiber-reinforced polymer

—Novel shear reinforcement for fiber-reinforced polymer-reinforced and prestressed concrete (102-S29) Whitehead, P. A., and Ibell, T. J., Mar.-Apr. 2005	286
—Performance of glass fiber-reinforced polymer reinforcing bars in tropical environments—part I: structural scale tests (102-S76) Mukherjee, A., and Arwkar, S. J., Sept.-Oct. 2005	745
—Repair and strengthening of reinforced concrete beam-column joints: state of the art (102-S18) Engindeniz, M.; Kahn, L. F.; and Zureick, A.-H., Mar.-Apr. 2005	187
—Seismic upgrade of reinforced concrete slab-column connections using carbon fiber-reinforced polymers (102-S33) Stark, A.; Binici, B.; and Bayrak, O., Mar.-Apr. 2005	324
—Thermal behavior of fire-exposed concrete slabs reinforced with fiber-reinforced polymer bars (102-S80) Kodur, V. K. R.; Bisby, L. A.; and Foo, S. H.-C., Nov.-Dec. 2005	799
Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005	823
Fibers —Analytical and experimental studies of fiber-reinforced polymer-strengthened concrete beams under impact loading (102-S15) Tang, T., and Saatmanesh, H., Jan.-Feb. 2005	139
—Behavior of concrete bridge deck slabs reinforced with fiber-reinforced polymer bars under concentrated loads (102-S74) El-Gamal, S.; El-Salakawy, E.; and Benmokrane, B., Sept.-Oct. 2005	727
—Comparison of confinement models for fiber-reinforced polymer-wrapped concrete (102-S07) Bisby, L. A.; Dent, A. J. S.; and Green, M. F., Jan.-Feb. 2005	62

—Durability evaluation of carbon fiber-reinforced polymer strengthened concrete beams: experimental study and design (102-S05) Grace, N. F., and Singh, S. B., Jan.-Feb. 2005 40

—Fire endurance of fiber-reinforced polymer-confined concrete columns (102-S90) Bisby, L. A.; Kodur, V. K. R.; and Green, M. F., Nov.-Dec. 2005 883

—High-performance fiber-reinforced cement composites: an alternative for seismic design of structures (102-S68) Parra-Montesinos, G. J., Sept.-Oct. 2005 668

—Influence of concrete strength on confinement effectiveness of fiber-reinforced polymer circular jackets (102-S38) Mandal, S.; Hoskin, A.; and Fam, A., May-June 2005 383

—Performance of glass fiber-reinforced polymer reinforcing bars in tropical environments—part II: microstructural tests (102-S82) Mukherjee, A., and Arwika, S. J., Nov.-Dec. 2005 816

—Punching shear strength of reinforced concrete slabs strengthened with glass fiber-reinforced polymer laminates (102-S54) Chen, C.-C., and Li, C.-Y., July-Aug. 2005 535

—Repair of bridge girders with composites: experimental and analytical validation (102-S65) Di Ludovico, M.; Nanni, A.; Protta, A.; and Cosenza, E.; Sept.-Oct. 2005 639

—Retrofitting concrete bridge columns under shaketable excitation (102-S64) Laplace, P. N.; Sanders, D. H.; Saidi, M. S.; Douglas, B. M.; and El-Azazy, S., July-Aug. 2005 622

—Seismic upgrade of interior beam-column subassemblages with high-performance fiber-reinforced concrete jackets (102-S14) Shannag, M. J., and Alhassan, M. A., Jan.-Feb. 2005 131

—Steel-free composite slabs made of reactive powder materials and fiber-reinforced concrete (102-S72) Hassan, A., and Kawakami, M., Sept.-Oct. 2005 709

Fire endurance—Fire endurance of fiber-reinforced polymer-confined concrete columns (102-S90) Bisby, L. A.; Kodur, V. K. R.; and Green, M. F., Nov.-Dec. 2005 883

Fire endurance of fiber-reinforced polymer-confined concrete columns (102-S90) Bisby, L. A.; Kodur, V. K. R.; and Green, M. F., Nov.-Dec. 2005 883

Fire resistance—Thermal behavior of fire-exposed concrete slabs reinforced with fiber-reinforced polymer bars (102-S80) Kodur, V. K. R.; Bisby, L. A.; and Foo, S. H.-C., Nov.-Dec. 2005 799

Flat slab

—Dynamic responses of flat plate systems with shear reinforcement (102-S78) Kang, T. H.-K., and Wallace, J. W., Sept.-Oct. 2005 763

—Effective slab width model for seismic analysis of flat slab frames (102-S88) Dovich, L. M., and Wight, J. K., Nov.-Dec. 2005 868

—Time-dependent deflection and deformation of reinforced concrete flat slabs—an experimental study (102-S36) Gilbert, R. L., and Guo, X. H., May-June 2005 363

Flexural behavior of confined high-strength concrete columns (102-S19) Tan, T.-H., and Nguyen, N.-B., Mar.-Apr. 2005 198

Flexural behavior of high-workability concrete columns under cyclic loading (102-S41) Lin, C.-H., and Lin, S.-P., May-June 2005 412

Flexural behavior of two-span continuous prestressed concrete girders with highly eccentric external tendons (102-S40) Aravinthan, T.; Wituchreangkrai, E.; and Mutsuyoshi, H., May-June 2005 402

Flexural strength

—Fatigue tests of reinforced concrete beams strengthened using carbon fiber-reinforced polymer composites (102-S31) Breña, S. F.; Benouaich, M. A.; Kreger, M. E.; and Wood, S. L., Mar.-Apr. 2005 305

—Fiber-reinforced polymer strengthening of concrete bridges that remain open to traffic (102-S83) Reed, M. W.; Barnes, R. W.; Schindler, A. K.; and Lee, H.-W., Nov.-Dec. 2005 823

—Reinforced high-strength concrete beams in flexure (102-S47) Rashid, M. A., and Mansur, M. A., May-June 2005 462

Flexure

—Analysis of concrete slabs using shell element with assumed strain (102-S52) Teng, S.; Liu, Y.; and Soh, C.-K., July-Aug. 2005 515

—Analytical model to predict nonlinear flexural behavior of corroded reinforced concrete beams (102-S56) El Maaddawy, T.; Soudki, K.; and Topper, T., July-Aug. 2005 550

—Flexural behavior of two-span continuous prestressed concrete girders with highly eccentric external tendons (102-S40) Aravinthan, T.; Wituchreangkrai, E.; and Mutsuyoshi, H., May-June 2005 402

—Long-term performance of corrosion-damaged reinforced concrete beams (102-S66) El Maaddawy, T.; Soudki, K.; and Topper, T., Sept.-Oct. 2005 649

—Repair of bridge girders with composites: experimental and analytical validation (102-S65) Di Ludovico, M.; Nanni, A.; Protta, A.; and Cosenza, E.; Sept.-Oct. 2005 639

Foo, S. H.-C.—Thermal behavior of fire-exposed concrete slabs reinforced

with fiber-reinforced polymer bars (102-S80) Nov.-Dec. 2005 799
